

1st Workshop on IMS Enabled Converged Networks IP Multimedia Subsystem: Present and Future

Programme

Venue: Conference and Cultural Centre of the University of Patras (Room I-4)

Monday 24th September

The Morning Session is dedicated to Topics addressing mainly the Present of Converged Networks while the Afternoon Session the Future of Converged Networks, followed by a Panel Discussion

08:30 - 10:00 Registration

Part A: Present

09:00 - 9:05 Welcome

09:05 - 9:45 Keynote

Overview of the Current Status of 3G Standards and their Long Term Evolution

David Boswarthick, ETSI

9:45 - 10:40 Session A1: End-to-End Communication

"IMS Terminals and Convergent Applications: current challenges and emerging solutions"

David Lozano, Telefónica ID, Spain

"IMS based dynamic peering through multiple routes: From Telecom Providers to Telecom Brokers Era"

George Kapelios, VoiceGlobe, Belgium

Discussion, Q&A

10:40 - 11:00 Coffee Break

11:00 - 12:30 Session A2: IMS Services and Applications

"IPTV services in NGN / IMS architectures"

Denis Mischler, Thomson Corporate Research, France

"IMS Management"

Florian Schreiner, Fraunhofer Fokus, Germany

"Octopus network"

Eero Laine, Octopus, Finland

"Interactivity as a key element in successful IMS services"

Pierre Hagendorf, RadVision, Israel

Discussion, Q&A

12:30 - 14:00 Lunch Break

Part B: Future

14:00 - 14:45 Project Presentations

"VITAL"

Wolfgang Brandstätter, Telekom Austria, Austria

"Panlab"

Anastasius Gavras, Eurescom, Germany

14:45 - 15:30 Session B1: IMS and Emerging Technologies

"Extending QoS from Radio Access to an All-IP Core in 3G Networks: An Operator's Perspective"

Said Zaghoul, Technical University Braunschweig, Germany

"IMS & Evolution of Services"

Pierre-Yves Le Lann, FT Orange, France

Discussion, Q&A

15:30 - 15:50 Coffee Break

15:50 - 16:50 Session B2: IMS and Social Behaviour

“IMS & Web 2.0”

Niklas Blum, Fraunhofer Fokus, Germany

“Intuitive Messaging - Closing the Gap”

John van Kemenade, Acision, The Netherlands

“Users claim for innovations: is Multimedia Infrastructure ready for social behaviour?”

David Lozano, Telefónica ID, Spain

Discussion, Q&A

16:50 - 17:00 Short Break

17:00 - 18:00 Panel

Is IMS really the solution for true convergence and seamless communication?

Tuesday 25 September

09:00 - 12:30 Demonstrations (Room II-9)

During the second workshop day, a series of live demonstrations will be delivered by the participants of the two projects, showing capabilities of testbeds that involve IMS-related scenarios followed by an open discussion. This will give participants the chance for a hands-on experience with IMS.

The demonstrations will usually be accompanied by short presentations.

The following participants will deliver demos.

- VITAL Project
- Fraunhofer Fokus
- Voiceglobe
- Octopus
- RAD Vision
- Thomson
- Comet
- University of Patras
